You can acquire a Starmist from just £8599. And right now you can take advantage of our $0 \%$ finance scheme.

You'll also qualify for a year's free membership of Vauxhall Assistance, our unique roadside recovery and accident management service.

For information on this or the whole Astra range ring 0800444200 or visit your Vauxhall dealer now.

First editions have always been like gold dust.

The new Starmist is an opportunity not to be missed.

As well as sharing the distinctive Astra body shell, our Special Edition sports alloy wheels, metallic silver or blue paint and a sunroof.

Look through the tinted glass and you'll find an equally distinctive interior.

Sports seats, a stereo system with 4 speakers and central door locking are all standard features.

But although it's a special edition, you can still be spoilt for choice.

Will you opt for the 1.4 or the 1.6 litre engine? Manual or automatic? Or the 3 or 5 door version?

Whichever one you choose, you'll find that it can run on unleaded fuel.

# ROMANIA THE FUTURE 

The Relief Fund for Romania was established in December 1989 to provide primary aid, and to help Romania tackle its long-term problems.

There is no doubt that individuals and institutions in Britain can ensure the ending of Romania's. economic and cultural isolation from the West and realise the immense potential now struggling to break through from forty years of imprisonment.

## How can we help?

- The funding of scholarships in Britain for Romanians.
- The donation of technical and scientific publications and expertise.
- The planning and co-ordination of projects for Romanian orphanages and hospitals.

The fund is appealing to the public and to UK corporations for urgently needed financial help. Any enquiries can be made to our Regent Street office.
Cheques should be made payable to Relief Fund for Romania, The Bank of Scotland, Piccadilly Circus branch, 16-18 Piccadilly, London W1. Account number 00424195.

 Why your business should have a Samsung personal fax. Explained in one line.

A Samsung personal fax is also a personal copier and telephone, so it plugs straight into your existing phone line. That means there's no connection fee for a dedicated fax line and no second
phone line rental charges.

These considerations, plus a price tag of just $\underset{\text { E } 599^{*}}{ }$ makes the Samsung SF2010 the ideal first fax for a cost-conscious small business.

If you're a Director in a laxge company, you'll see the benefit of a Samsung personal fax too. Namely confidentiality. Your own fax, on your own desk means that unlike the office fax, there's no queue of nosy people to surreptitionsly read your confidential documents.

Whether it's used in big business or small business, the Samsung SF2010 does the business. Just check the list of features below. For more details simply fill in the coupon.  due to visit Brazit earliy in
June to begin negoiations． Italian change
 Dablic expenditure surveys are
as as described by he Treasury
asficult inflation rising and an election on the
horizon it is hard not to agree．Probably the best way to calibrate the underlying
level of panic is to see how earry in the evel of panic is to see how eariy in the
survey the informal warnings begin to
circulate．This year they have begun ven eartier than usual． Nobody kows at this stage how large
the bist for extra spending will be in
total Departments have not yet sent in thai Departments have not yet sent in speculation．But it is not difificult to
draw up a list of politiony dent draw up a list of politically desirable
additions． Heallh will have to have more，
because heallh always has to have more，
Even if the Goverument were not
politically on the defensive over the
NHS there would be a politically on the defensive over the
NHS there would be a good case for
spending more on a service which the consumer if he paid for it at the point of
more of Edither than through taxes． Education is another public service
over which the Govermment has been on the defensive and which is a high
priority both from an economic and priority both from an economic and
political poinn of view．Transpor＇s time as come with the growing frustration
over congestion，and the Government has made a strong bid to take advantage presents．Ennvironment is another interest is strong and the demand for after the Strangeways afffir it may be
difficult to vaoin difficult to avoid some firther money or the prison service．
Totalling up the bis
escarily give a precise measure of the
real pressures on real pressures on spending．Some min－
isters adopt the tactic of throwing in isters adopt the tactic of throwing in
everything they can think of and then relinquishing 95 per cent of their demands．Others make a modest bid but
dig in bard behind it（former Chief Secretaries to the Treasury tend to come invo this category）．Adding the two
different kinds of bids together can be misleading
However
he irrelevant the quality of the bids may o meet all these yemar because the scope existing plans is approximately nil．The
room for manoueurre on the reserve has already been mortgaged．
That is more important than it was in
the last survey because the fous of the tass survey because the focus of
decisions is likely 10 wwitch back on to
the Treasury＇s phanning tial this the Treasury＇s planning total this year
Last years revisions to the system of Last year＇s revisions to the system of
public spending control left litte alter－
native butco pative but to focus on the wider concept
of of general government expenditure
（ceniral and local）．Bui the purpose of the reform was to leave the control of
local spending to local accountability local spending to local accountability
and restrict the survey to those things
over which central govemment had some control，that is the planning total．
The reserve currenly writen into the plans for 1991 －92－the focal year of the
survey－is $£ 6$ billion．A reasonable working reserve with which to start the year would be 23 billion，which leave
about $£ 3$ billion 20 allocate to pro grammes in the course of the present
survey． Survey．
Some of this has aready bee allocated Since the publice expendituree
plans were finalized ahead of last year＇s ment have been made including
construction of the extension to the Jubiliee line on London＇s Underground
and a better deal for pen were not allowed for in programmes and bave to come out of the reserve．
Inflation is also higher than Inflation is also higher uhan the
assumption made in the autumn state－ ment plans．The Budget Red Brook
assumes a GDP deflator of $61 / 2$ per cee compared writh 5 per cent projected in inflation expectations and since then nisen，Social security benefits will be
uprated on the basis of the Septem be retail price index of in the September
in some cases excluding housing costs．
Interest rates are turni than exesectretes and this wing out higher the cost of programmes and to debt
interest，whicb is outside the Treasury＇s plansing total Unilike in some previou shorifall of spending in the cup from a or rrom unemployment at a lower level
han forecast（though allowance for a rise in the plans）．
Most important of all is Most important of all is likely to b the pol tax review now in progress．A
panicky decision on poll tax reliefcould
use up the whole of the scope for use up the whole of the scope for
manouve on the reserve and more，by
itself．Whatever the decision，there is unslifely to be muct tocision，thay whith when
the survey proper gets under way the survey proper gets under way．
As they finalize their bids and prepara their strategy for the annual haggle ove spending ministers faced verith this
simation should reflect on three points． situation should reflect on three points．
First，the＂cushion＂of a large budget
surplus has already almost disappeared． Excluding privatization proceeds，pub－ already close to zero． Second，there is no guarantee tha interest rates have reacbed their peak
big increase in public spending ahead o what could be an election year will be far from reassuring to financial markets．
Third，whatever the immediate Thind，whatever the immediate pol－
itical pressures，to bind the Chancellor hand and fool in a preelection Budget Tould be remarkably shor－sighted．The public spending card．They would be
wise to retain some scope for cuttin
